

2D Data Matrix Barcodes

Powered by GS1 Standards

2D data matrix barcodes will support traceability, interoperability, and streamline workflows for hospitals and health systems, as well as help support improved inventory management through greater transparency and information exchange.

Components of the 2D Data Matrix Barcode:

- Application Identifier
- GTIN Number
- Lot Number
- Expiration Date
- Serial Number
- Product Code

Supercharge your supply chain with 2D data matrix

- Drive visibility for products throughout the supply chain and inside the hospital
- Complement your Drug Supply Chain Security Act (DSCSA) compliance requirements for pharmaceutical manufactured products with the addition of Quva's 503B labeled products
- Enhance safety in dispensing and administration
- Reduce manual data inputs
- Gain efficiencies in inventory management
- The 2D data matrix barcode will be applied to both case packaging labels and unit of use primary labels on all Quva products
- The barcode will include product number, lot number, expiration date,

For questions about Quva Pharma's 2D data matrix barcodes, please speak to your Sales Account Manager or contact Customer Service at 888.339.0874 or Customer.Service@oneQuva.com.
